

The Daily One-Minute Inspections (OMI)

JUST REMEMBER "PETR VAVRUCH"

- ▶ P – Pressure (check for pressure changes on gauges)
- ▶ E – Entry (exams point of entry for possible contamination)
- ▶ T – Temperature (feel, check for changes in temp)
- ▶ R – Rattles and sounds (does the machine sound right?)

- ▶ V – Volume (has the oil volume changed? Sight glass?)
- ▶ A – Alright, alright, is your filter alright?
- ▶ V – Ventilation (are breathers serviceable?)
- ▶ R – Rust (look through inspection hatch for rust, foam, varnish?)
- ▶ U – Underneath (take a bottom sample)
- ▶ C – Colour (what is the colour of the grease and oil?)
- ▶ H – Housekeeping (cleanliness & leakage?)
