

Logos Hope Fundeck Report

Name: Tessa Govender

Age: 4 years, 8 months.

Tessa is friendly girl who loves to play with all children. She has great social skills which she uses with both children and adults. While she enjoys playing with children, she thrives when carrying out any adult lead activity in the classroom and really enjoys positive adult attention.

Overall, Tessa shows exemplary behaviour. She can be relied on to show others how to behave in class and is a great role model to the younger children. As with all children, there are moments when she can be with a group who are being silly in the excitement of the moment, but after a reminder she quickly comes around and displays appropriate behaviour to the rest of the class.

Tessa is now very independent in Fundeck. She obviously enjoys playing with specific friends but if there is an activity that she wants to carry out independently, she will not be fazed by being on her own. This has been a huge step over the past year. She is no longer shy and timid when with her peers.

Tessa continues to demonstrate good fine motor skills and develops them through activities such as threading cards/beads, playdough activities and challenging jigsaw puzzles. She has good gross motor skills and she is very capable of riding her scooter and running around with the other children but she expresses herself more through dance. As Tessa is expressing herself as a fairy, princess or a ballerina, she demonstrates that she has very good body control.

Tessa's favorite activities in Fundeck haven't changed much over this past year. She still loves to spend time dressing up, dancing, and in the reading corner. She has also developed an enjoyment for the messy activities such as using shaving foam and gloop. Personally, I am going to miss Tessa as she moves up to Reception. She is totally ready for this change and I think she will thrive on new challenges. Tessa has been a huge enjoyment to me over these past two years and has made me smile every day that she has been in class. She is a very special young lady. I pray that she will settle quickly in Reception and have a great start to 'real' school!
